

10,000 Signatures of Support for Take Back Our Union

About 9,600 Local 100 members signed petitions to put Take Back Our Union candidates on the ballot in the union election in June. That's a lot of support.

In the last election, our present gang of union officers won with less than majority support because there were three slates running which split the vote. This next election is very different. There are only two slates.

In June you will have a clear choice to make. Vote to stay the present course which has proven to be a total disaster for our Union and the membership. Or vote for real, positive change that can rebuild Local 100 and return it to being the strong, powerful union it once was.

Contract Arbitration – What a Disaster

The Union tells us nothing about what is happening in the contract arbitration.

The newspapers tell us we may get zeros (\$0.00s). They also tell us that hundreds and perhaps thousands of Local 100 members are now being targeted for layoff.

Tate, Watt and Roberts just stood there and let Roger Toussaint decide to go to binding arbitration and become one of the arbitrators. Toussaint is the only one who has a vote on our contract now!

Vote and Take Back Our Union

If elected, Take Back Our Union will win good contracts and protect our livelihoods. We will rebuild Local 100 by uniting, organizing and mobilizing the membership into a Union that has real power in the subways, on the buses and in the halls of government to get us good contracts. We believe in having a Union that management must respect.

Vote!

John Samuelsen for President
Israel Rivera for Secretary-Treasurer
Benita Johnson for Recording Secretary
Angel Giboyeaux for Administrative Vice President
